PRODUCT DESCRIPTION

Chemron's 750ml Applicator Spray Bottle - the perfect solution for safe and convenient decanting of your chemical concentrates or ready-to-use dilutions. Designed with utmost care and attention to detail, this bottle is a must-have for those who prioritize safety and ease of use.

Safety is paramount when it comes to handling chemical concentrates, and that's why our spray bottle is available fully labelled with all the relevant regulatory information. You can rest assured knowing that every detail has been taken into account to ensure your continued compliance and safety while decanting and using Chemron's products.

The 750ml capacity of the bottle provides ample space to hold your chemical concentrates or diluted ready-to-use solutions, allowing you to have a sufficient amount readily available whenever you need it. Its ergonomic design ensures a comfortable grip, making it easy to spray the desired amount with precision.
