PRODUCT DESCRIPTION

Biodegradable, non-flammable, non-caustic, easy to use and formulated to remove heavy wax and grease safely from almost any surface. Easily breaks down copper-based thread lube grease and blackjack grease.

Product Features:

- Biodegradable
- Non-flammable
- Non-caustic
- Safe to use
- Easy to apply

Ideal for:

- Manufacturing
- Mechanics
- Mining
- Transport
- Plant and equipment maintenance

Customer Experience - Queensland Coal Mine

"We needed to remove thick moly based mining grease and blackjack from excavators and other plant prior to servicing. Normally this wouldn't be a problem, although as a coal mine site we cannot use flammable solvent-based degreasing agents.

I searched for a non-flammable degreasing agent that could do the job and eventually came across Chemron and their Strip Lube product. After a successful trial, we have settled on using this product.

I found the staff at Chemron to be helpful and responsive."

DIRECTIONS FOR USE

Dilution: Dilution is not required.

1. Remove any loose contamination.
2. Apply to surface by spray or brush.
3. Allow to dwell for up to 3 minutes.
4. Agitate with a soft brush to assist removal.
5. Apply a second time if needed.
6. Once removal is complete, any residue can be rinsed off with a water-based degreaser or detergent.
