Mower Restorer

Lawn Mower Cleaner

Mower Restorer is a highly effective cleaning solution formulated specifically for grounds maintenance equipment, such as Lawn Mower.

As a lawn mower cleaner easily cuts through the build-up residue associated with grass cutting and groundskeeping activities. It is an extremely good release agent which cleans metal, painted surfaces, rubber and plastic fittings on all equipment.

Mower Restorer extends the working life of your groundskeeping equipment.

Commonly used for lawn mower, blade and tractor cleaning.

As a post-clean protectant apply a liberal coating of Protecta.

Applications:

- Blades
- Guards
- Tyres
- Motor
- Hoses

Directions for Use:

Dilutions: Cleaning heavily soiled equipment – 1 part to 10 parts water.

1. Remove any loose contamination. Use a pressure washer where applicable.
2. Apply using a brush or sprayer.
3. Allow to dwell for 5 to 10 minutes, but do not allow to dry.
4. Thoroughly rinse the area with water. Preferably use a pressure washer.
5. Repeat steps 2 to 4 if required.
6. Once the area has been thoroughly cleaned and has dried. Apply a liberal coating of Protecta.

Note: Avoid prolonged contact with aluminium and painted surfaces.

Features:

- Clean all metal, painted, rubber and plastic fittings on all equipment
- Neutralises corrosion-causing acidic build-up
- Mower restorer extends the working life of your groundskeeping equipment

Pack sizes:

1L • 5L • 15L
