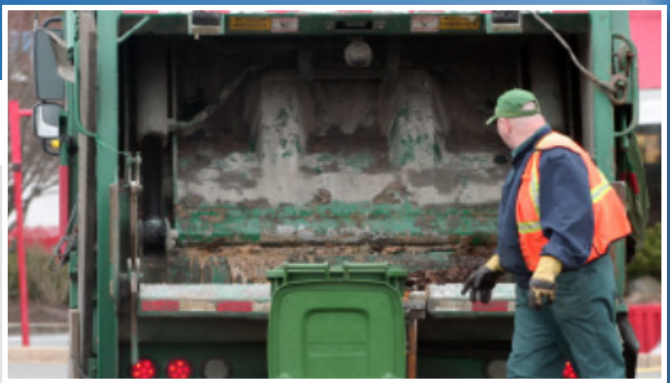
# Odourless

## Odour Neutraliser



Odourless is an odour-neutralising blend of essential oils and various perfume compounds derived from plants mostly grown in Australia.

Odourless has been formulated to offer immediate and long-term elimination of unacceptable odours, by either destroying the odour or making it more acceptable. Despite having a pleasant fragrance, it should not be considered merely a masking agent.

## Applications:

- Sewage and waste-water odour control
- Industrial odour removal
- Transport vehicles
- Animal odours
- Hospitals, schools, hotels, etc.

## Directions for Use:

**Dilution:**

- May be safely used without dilution and also can be diluted as necessary for any situation.
- Indicative dilutions are:- Heavy odours: No dilution.-
- All-purpose: 1 part to 9 parts water.
- Wash or rinse water tanks: 1 part to 60 parts water.
- Dilute with water up to 100:1 for disinfecting.
- Dilute with water up to 150:1 for sanitising.
- Dilute from 60:1 up to 200:1 with water for general odour control.

1. Remove any solid or liquid waste from surfaces.
2. Apply by pressure sprayer or mop to the offending surface or spray sparingly into the air.
3. Allow to dry.
4. Decrease the dilution if odours persist.

**Note:** Read the product SDS carefully before handling this product.
