

## Stainless steel cleaner

### Stainless Steel Cleaning Product

Stainless Steel Cleaner is a heavy-duty cleaner formulated to remove tea staining and corrosion common to stainless steel surfaces exposed to the elements.

Designed for cleaning stainless steel and used to chemically brighten the surface. Use on balustrading, commercial kitchens, tanks, etc.

We strongly recommend that after the cleaning process the surface is protected with a suitable sealer such as our Stainless Steel Sentry. This will protect the newly cleaned surface from further degradation and will prolong the brighter, polished finish.

#### Applications:

- Balustrading
- Any stainless steel surfaces
- Tanks
- Cookware
- Ovens
- BBQs
- Appliances

#### Directions for Use:

##### Dilutions:

- Light cleaning – 1 part to 15 parts of water.
- Medium cleaning – 1 part to 10 parts of water.
- Heavy cleaning – 1 part to 5 parts of water

##### Directions:

1. Clean off any loose matter.
2. Apply using a brush or sprayer.
3. Agitate with a brush or non-scratch scourer working from the bottom up.
4. Allow to dwell for 5 to 10 minutes, but do not allow to dry.
5. Thoroughly rinse the area with water.
6. Repeat steps 2 to 5 if required.
7. Apply a suitable protectant.

#### Features:

- Brings older surfaces back to a near-new state.
- Removes tea staining and rust spot
- Removes corrosion
- Brightens finish

#### Pack sizes:

1L • 5L • 15L
