Three In One

Toilet Stain Remover

Three In One is a heavy-duty, stain-removing cleaning agent for that once a month deep clean. It performs the three necessary functions of washroom, shower and toilet area cleaners in a straight forward application.

1. Cleans and removes stubborn built-up stains
2. Disinfects
3. Deodorises

Cleans - contains a mild passivating phosphoric acid blend that is used to remove stubborn stains and built-up uric deposits, and restores the original lustre to stainless steel urinals, porcelain bowls and tiled areas. It is highly effective in the removal of uric acid build-up, light rust and limescale.

Deodorises - eliminates odours and leaves a fresh floral fragrance.

Three In One is also recommended for any area that requires a general acidic cleaner for disinfecting and deodorising. Some users of Three In One include kennels, catteries and other animal housing areas due to its ability to control parvovirus contamination and pet odours.

Due to the powerful cleaning action of Three In One, it is recommended for use as a deep-clean applied in a once-a-month cycle. For daily hygienic cleaning, we recommend **Bravo**. Alternatively, for a more aggressive acidic clean to remove tough rust and uric acid stains, we offer our **Tile Clean** as the most effective solution.

Features:

- Removes uric acid deposits, light rust and limescale.
- Restores the original lustre to stainless steel urinals, porcelain bowls and tiled areas.

Pack sizes:

1L • 5L • 15L

Applications:

- Toilets
- Bathrooms & Shower stalls
- Urinals, troughs and bowls
- Animal shelters

Directions for Use:

Dilution: Do not use undiluted.

- Floor: 1 part to 20 parts water.
- Toilet Facilities: 1 part to 10 parts water.
- Heavily Stained Toilet Bowls: Add 200ml to the toilet bowl water.

Directions:

- Apply to floors using a mop and bucket.
- Apply to urinals etc. with an acid-resistant sprayer and agitate with a brush.
- Allow to dwell for five minutes, but do not allow to dry.
- Thoroughly rinse the area.

Toilet Bowl Stains

1. Add Three in One to the toilet bowl water.
2. Leave overnight, or at least several hours.
3. Flush the toilet and inspect, if some staining remains, repeat the process.
